H G SERIES Computerized Embroidery Machine

Newly designed HCD2 series is built with the same principles and superior craftmanship Happy is known for. Compact but strong body gives the possibilities to handle all type of materials and finished goods.

Full-Industrial Embroidery Machine

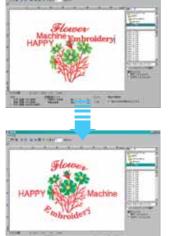

In terms of functionality, HCD2 makes no compromises when compared to its full-sized siblings in the HAPPY line. Engineered in a strong cast-iron frame. HCD2 may be compact in size, but is built to stand the rigors of commercial sewing. Sometimes big things do come in small packages!

Happy Link & LAN Connection

USB connection with machine and PC with Link software enables you to transfer and control designs and change color and set sewing. LAN system enables network to control multiple machines with one PC Monogramming and design editing functions expand the flexibilities and the possibilities.

Example of editing function

Front Light

A bright LED light illuminates the work area bright.

Color LCD Touch Screen Control Panel

Newly designed color LCD touch screen control panel makes operation easier and faster. A stylus is equipped as standard, and USB mouse for PC can be used.

With wide embroidery area(1200mm width) HCD2-X1501-40 is lined up as subclass. The flexibility of machine also allows you to embroider on cap and finished goods.
